

## Centre of Research Excellence in Pulmonary Fibrosis

### CREATE Travel Grant Report

Please provide us with some feedback on the travel opportunity which was funded (or partially funded) by your CREATE Travel Grant. This information will help us in our quest for more funding for travel grants as well as providing an outcome for the activities of CREATE within the CRE-PF.

It will be helpful to know the following types of outcomes which relate to your professional development and/or your research into pulmonary fibrosis:

- Meeting attended
- Topic of research presentation (poster or oral)
- Learnings from the meeting
- Useful additions to your network
- Collaborations or potential collaborations
- Invitations to visit/present elsewhere

If you received funding from elsewhere (other than personal funding) to support this trip it would be useful if you are able to include information about it

Name	
Date of Travel (MM/YYYY)	
Purpose of Travel	
Funding from CREATE	
Funding from elsewhere	
Outcomes
